**EXAMINER'S COMMENT** ✓

**European Search Report**

1. The Examiner has considered the European Search Report for EP 02 098 0031 filed November 21, 2003. The references cited therein were cited on Applicant's PTO-1449 which was initialed and mailed to Applicant in the previous office action.

**REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: ✓

The prior art does not disclose or suggest a light conducting rod having reflecting side walls to reduce position dependence of the intensity distribution of the beam, the rod being disposed in the path of the projection beam between the pupil plane and a first image plane of the pupil plane, and at least one optical element configured to image the pupil plane onto the first image plane of the pupil plane, wherein the beam splitter is positioned downstream of the light conducting rod in combination with all the other elements recited in independent claim 19.

The Examiner agrees with Applicant's Arguments filed in this Remarks filed June 2, 2005, regarding why amended independent claims 1 and 11 define over Takahashi and Shiozawa.
